

SPRINGKONIJTJE

Knip de bewerkingen onderaan dit document uit en stop ze allemaal in een doos.

Zet de doos met de bewerkingen aan de ene kant en de lege doos aan de andere kant.

Laat je kind telkens een bewerking uit de doos nemen, deze lezen en vervolgens de oplossing springen.

Daarna loopt je kind naar de lege doos om de bewerking daar in te leggen en terug naar de doos met de bewerkingen te lopen.

Bvb: $10 - 5 = 5$ keer springen

Differentiatie: Laat je kind springen als een haas (verdere sprongen).

FUN: Doe mee met je kind. Wie kan het verste springen?

TIP: Wissel de sommen eens om (*bvb: $1 + 2 \rightarrow 2 + 1$*)
